

SAINT-JEAN-SUR-RICHELIEU, OCTOBER 1, 2023

Microelectric® CR option meter sockets Homeowner visibility campaign and promotion (Newfoundland)

Duration

From October 9 to November 30, 2023

Eligibility

Participants must be legal residents of Canada and 18 years of age or older. Participants must be homeowners on the island of Newfoundland with a 200 amp or lower electrical service entrance on their homes.

ABB employees and persons domiciled with or related to them are not eligible to participate in this promotion. ABB has the right to request proof of identity or eligibility from the participant for him/her/them to participate in the contest. Failure to provide such proof may result in disqualification.

All information supplied to ABB must be truthful, accurate and complete. ABB reserves the right to disqualify any participant should the information provided be false, inaccurate, or incomplete.

How to enter

To participate, a person must upload and complete the following information on our dedicated web site at www.microCRpromo.com.

1. A photograph of the meter socket installed on the exterior of their home.
2. Fill in the information requested at the time of upload to provide additional details.

Participants must agree to have their meter socket photo published on our website as part of the visibility campaign.

The entry must be received on or before midnight (Eastern Standard Time) on Thursday, November 30, 2023.

Only entries with single-gang meter sockets, up to 200 A capacity will be considered.

Prizes

Five (5) winners of a Microelectric CR series meter socket, including installation, will be determined in a random drawing from all eligible entries received. The draw will be held on Wednesday, December 8, 2023 at 11:00 AM (Eastern Standard Time) at ABB Electrification Canada Inc., 700 Thomas Avenue, Saint-Jean-sur-Richelieu, Quebec, J2X 2M9.

Each prize includes:

- A Microelectric CR option meter socket approved for use by the local utility
- The connectors and accessories required for installation
- Installation by a qualified electrician
- Fees for utility disconnect/reconnect if applicable

Each prize excludes:

- The cost of any additional electrical work or related products. ABB is not responsible for any issues requiring repair found during the installation process.

Winners will be contacted by phone or email. If ABB is unable to make contact with a winner after a period of 15 working days, another winner will be drawn from all eligible entries.

Winners must agree to appear in marketing materials related to this promotion and to provide ABB personnel periodic access to monitor and document the condition of the installed meter socket.

Winners can recommend their own electrician to carry out the installation but ABB reserves the right to verify credentials and suitability and, if required, select another electrician. Installation scheduling is dependent on the electric utility having jurisdiction and seasonal weather conditions.

Other conditions may apply. Winners will be informed of any said conditions following the drawing.
